Ooh da da dum oh da da dum dum da dum du du du

Are you listenin'?

What are you doin tonight
Are you alone
Thought of you come over my mind
I miss you to the bone
I'd like to come on ova
Leaving exile and discova

Girl we need to have a one to one
Me and you we really do
We should have a one to one
And know that I say
We've got so much things to talk about
We must get togedda to sort it out
If in your mind you have some doubt
Come then let me show you what I'm about
We need to have a one to one
Oh girl, no denyin
We should have one to one
And I want you know that
I would not mislead you like those other guys do
I wouldn't use you
Count on me
My love will always be true
All I ask of you woman
Is to be pure and true
Just you be pure and true
If you can do that woman
Than I would
I say yeah
We should have a one to one
Oh yeah we really do
Girl we should have a one to one
Alright then talk to me

What are you doin tonight
Honey are you alone
The thought of you come ova my mind

Leaving exile and discova
