Consider, how she make it to the end of the day
Working so hard just to get paid
As a single parent life ain't easy
Playing the role of mom and dad

Consider, how she make it to the end of the day
Working so hard just to get paid
As a single parent life ain't easy
Playing the role of mom and dad

Woman I thank you, thank oh mama, mama
I never know no father yet you provide my dinner
And I love you oh mama, when you cry I cry too
Why do you look so dull and forsaken
I know he is gone and your heart is broken but we are
still together
Mama never leave us alone at home no

Won't turn my back and you can count on that
If I should go I shall be coming right back
That motherly love gently tucking me in the sack
Bedtime kisses and hugs I feel as if I'm taking back
How sweet you are let me number the ways
I asked the father guide you for the rest of your days

Any how it gone bad already can't stop him now
Eve got to survive some way some how
Nuh fret and mawga down better must come
From the lord ordain thy will must be done

Nuh expose yuh linen dirt ever deh pon di ground
Nuh make di world know 'bout yu
Yu character pipe will bung
Go on Buju the Banton with words of wisdom
Woman hold your head up not down
