Most people think others can not make it without dem  
No man is an island but I still can not trust dem  
Oh we have learn more than what they've taught us

So in this day and age we'll let knowledge take it's

Over the mountains and over rocky terrains  
We try to prove to mankind that Jah Jah lives and reigns  
He in the heart of man so we must manifest  
Together we standing tall

Chorus:

We'll be alright  
With Jah by my side

Put your shoulder to the wheel  
Go days without meal  
Walk up and down run down mi boot heel  
Nuff think I am joking nuff thinking it's fun  
Catch I when I fall
