Been through the fire and didn't get burn  
Buju Banton, Luciano come fi teach  
Listen and you will learn

The price you pay  
And still at the end of the day  
For them it's just a lue la lay

We have done all the good that we know should  
Spread a little love in the neighborhood  
Buju done that, I and I done that  
Spread a little love in the whole wide world  
And telling my people better take control  
We have done that, I and I done that

Well, so tell I, why do they act so strange who  
Through mi natty them would a love mi rearrange who  
Come ya to speak the truth, the natty never hold it back  
I never hide the truth, Jah know mi never hide the fact

No couldn't love mi talk, no couldn't love mi chat  
A who a try stop Buju fi reach pon top  
Buju Banton, Luciano, two youth them can't stop  
Touch it, touch it, touch it star

Amidst temptation, I and I will be strong  
I earn my meditation in this holy Armageddon  
With love and righteousness, we manifest upon  
creation  
Together we're standing tall

We'll be alright  
With Jah by my side

Most people think others cannot make it without dem  
No man is an island but I still cannot trust dem  
Oh, we have learned more than what they've taught us  
So in this day and age, we'll let knowledge take its  
place

Over the mountains and over rocky terrains  
We try to prove to mankind that Jah Jah lives and reigns

He in the heart of man so we must manifest  
Together we're standing tall

Put your shoulder to the wheel, go days without meal  
Walk up and down, run down mi boot heel  
Nuff think I am jokin', nuff thinkin' it's fun  
Catch I when I fall

We have been everywhere in the world we could  
We spread a little love, we haffe know we should  
We have done that, Buju Banton done that  
We have traveled the world and we spread Jah word  
Tellin' mankind to rise and move forward  
We have done that, yes, Jah know we have done that

Why do they think Rasta cannot make it without dem  
No man is an island but I refuse to trust, good gosh  
Oh, we have learned more than what they've taught us  
So in this day and age have got to let us, let us

Cannot move in rage, that's a wrong stage  
That dem wan fi si mi do fi fling me inna cage  
Take it easy, deh pon a descent page  
Yeah, I'm not face

We will survive, yeah, Buju Banton  
We will survive, oh, Luciano [Incomprehensible]

Jah tell me dat mi basket never empty  
And food mi ago hav it nuff plenty  
So mi nuh sit and worry, mi jus a wait pan prophecy  
Ca mi know sey God will take care a mi
