If you saw my baby by the flow of candlelight  
You would see why I need to be with her every night  
Nothing's like the sweetness that I've tasted on her lips  
Nothing drives me crazy like the motion of her hips

The way she moves, like fire dancing  
I feel her burn, we toss and turn  
A chiki, chiki, cha, on and on  
Ella es candela, she's got me burnin'  
Chiki, chiki, cha, chiki, cha, cha, cha  
The rhythm of our bodies, oh, we just can't stop

Ella es candela, she gives me fever  
And in the morning I don't want to leave her  
Chiki, chiki, cha, chiki, cha, cha  
The rhythm of our bodies, oh, we just can't stop

She gives all her passion every time we're alone  
And until the light of dawn we make music of our own  
All my secret fantasies, she already knows  
I don't have to say a word that's just how she flows
