I was walking down a one way street  
Just a looking for someone to meet  
One woman who was looking for a man  
Now I'm hoping that the feeling is right  
And I'm wondering if you'll stay for the night  
So I'm coming (I don't wanna be lonely)  
I wanna love you all over

Do you believe in love  
Do you believe it' true  
Do you believe in love  
Oh you can bet I believe it too

Now the feeling is beginning to grow  
And the meaning is something you only know  
If you believe it take my hand and I'll take your heart  
Now I'm wondering where does true love begin  
I'm going under so I'm lettin' you in  
My woman (I don't wanna be lonely)  
I wanna love you all over

Do you believe in love  
Do you believe it' true  
Do you believe in love  
Oh you can bet I believe it too

I use to have you in a photograph  
(I'm so glad it's changed)  
But now I've got you and it's gonna last  
(Do you believe in love)

Do you believe in love  
Do you believe it' true  
Do you believe in love  
Oh you can bet I believe it too
