Woman left for another man
Took you're car and a steely dan

There's only one thing to do

Keep on walking and don't look back
Head on down to the chicken shack
Go and act like a maniac
Keep on walking and don't look back

Had a little trouble with a guy at work
Got a great big mouth for a little jerk
Got a lot of bills one check won't pay
And a love that's real is fading away
There's only one thing to do

Keep on walking and don't look back
Head on down to the chicken shack
Go and act like a maniac
Keep on walking and don't look back

Keep on walking and don't look back
Don't you just sing the blues
Keep on walking and never look back
Put on your walking shoes
Keep on walking and don't look back, never look back
Just chalk it up to history, set yourself free

Keep on walking and don't look back
Head on down to the chicken shack
Go and act like a maniac
Keep on walking and don't look back
