

## **Acid House Kings "Family Friend"**

Visit "[Family Friend](#)" on MotoLyrics.com

It's not that easy  
She is a family friend  
And family friends do not make good girlfriends

And worst of all is  
She still seems to see her old boyfriend  
I cannot stand him  
Why can't she see it?

I hear her sing it once again  
And it makes me bored

Everything can be like before  
If you unlock your heart once more  
Everything can be like before  
If you unlock your heart once more

(And hear me say I'll stay with you)

It's not that easy

It's not that easy  
She is a family friend  
And family friends do not make good girlfriends

I hear her sing once again

Everything can be like before  
If you unlock your heart once more  
Everything can be like before  
If you unlock your heart once more

(And hear you say too, I'll stay with you)

Everything can be like before  
If you unlock your heart once more  
Everything can be like before  
If you unlock your heart once more

(And hear you say too, I'll stay with you)
