Cum on believers!  
Await the fire!

Sickness rules my life crime  
The devil taught me a long time  
Await, can't prove my justice

Forsaken bastard take this  
A fuck of death just taste it  
Re-open this hellgate

Morbid bastard Son of evil  
Join the club Never rest  
Take your pleasures... and... Take your  
Pleasures... and...

Open wide the gates of hell! Open wide the gates to  
Hell!

I, the wolf inside the sheep  
The spawn of demon seed  
A fire to clean your soul  
I'm the one upon the throne  
The master in disguise  
I'm the nihilist alive

Ghouls To Strike

Soon I'll lead your enemies  
Teach those hunting bloodfreaks  
Demon's lust for warfare

Praise my words in darkness  
Eternally in league with  
Obey my devilish forces

And the world it falls  
Under my blade!
