It's a sunny day in Paris  
But rainy where I am  
Birds are flying across the sky  
To show me there is more

Maybe I don't talk enough

Do you understand?  
I can't change the way I am  
It's easy for you  
But maybe hard for me  
Please help me now  
I'm on my way now

I wish I had someone, maybe  
To follow around  
It was never my intention  
To never get any attention at all

I don't ever talk enough

Do you understand?  
I can't change the way I am  
It's easy for you  
But maybe hard for me  
Please help me now  
I'm on my way now

Do you understand?  
I can't change the way I am  
It's easy for you  
But maybe hard for me  
Please help me now  
I'm on my way now

I tried to make everything nice tomorrow  
I would rather be happy here today  
I tried to make everything nice tomorrow  
I would rather be happy here today
