

## **Acid House Kings "Under Water"**

Visit "[Under Water](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Take away the trouble, take away the pain  
We are going to a sunny side, no one stays the same  
Go away to Broadway  
Dance with Gay Divorce  
We don't care where we're coming from, all we know  
there's more

We could go go go to a place under water  
Come come come to a place in the sun  
You could be Kelly, I could be Fred  
We're on the border  
We're under water

The books that you were reading  
Put them back on the shelf  
The magazines on your table top are not of any help  
We will be a mystery, let's go down in history  
There are still some places to see that are saved for  
me

Take away the trouble, take away the pain  
We will find a sunny place, we won't stay the same

We could go go go to a place under water  
Come come come to a place in the sun  
You could be Kelly, I could be Fred  
We're on the border  
We're under water
