"My Best Kiss"

Yeah, yeah, gonna put you in my mouth
what you say is dirty to me is purity
wanna kiss you, yeah, kiss you with my best kiss
lips like yours just gotta be lying
yeah, yeah, gonna put you in my throat
While they underline morality
and if how come i'm so dumb, you wanna spend all
your time with me?
You got trouble on your mind
You got it double, thats why you shine
You got trouble all the time
You got it double thats why you shine

Don't call it hell, call it soul, don't call it hell, no

YEAH, yeah, your mouth
Underline morality
And if how come i'm so dumb, you wanna spend all
your time with me?
Soul? Hell? soul. no.
