Aint it strange how the moon only comes up once a
night
Aint it strange how the moonlight has an edge on it that
can bite
Aint it strange how an owl don't make a sound as he
flies
Aint it strange
Aint it strange how time can stretch your perception of
your life
Aint it strange how what you can do can cut people like
a knife
Aint it strange
Aint it strange
Aint it strange
Aint it strange how you think you know the whole truth
but all you know is a grain is a grain
Aint it strange how the sun can come up and surprise
you in the rain
Aint it strange
Aint it strange
Aint it strange
