Ain't it strange how the moon only comes up once a
night
Ain't it strange how the moonlight has an edge on it
that can bite
Ain't it strange how an owl don't make a sound as he
flies

Ain't it strange
Ain't it strange

Ain't it strange how time can stretch your perception of
your life
Ain't it strange how what you do can cut people like a
knife

Ain't it strange
Ain't it strange
Ain't it strange
Ain't it strange

Ain't it strange how you think you know the whole truth
But all you know is a grain
Ain't it strange how the sun can come up
And surprise you in the rain

Ain't it strange
Ain't it strange
Ain't it strange

...
