Wired antisocial beast  
Wired not put out in the least  
Someone's got up my nose  
Bothering me, who knows

The whys and the wherefores  
Speaking in semaphores  
Wired everything moves in slow motion  
Wired some sort of a computer

The tapes running backwards  
Keep up your step on the moving pavement  
So what are you on?  
So what are you on?  
So what are you on?  
So what are you on?

An escalator taking you underground  
That's what it is, it is  
That's what it is, it is, it is
