Tired and lonely still we stand,
On a road to nowhere.
Trapped in a world of endless days, my engine's stalling.
(Road to nowhere)
Body and mind are breaking down,
On a road to nowhere.
Destiny silent, hear no sound, as I wait forever.

Farewell, I miss you
I'm sick of these good byes
Cause it tore us apart, right from the start
I miss you.

Feelings that filled me left me cold
On this road to nowhere
(Road to Nowhere)
Dreams are my saviors, save me now, cause I know I'm fallin'
(Oh yeah)

Farewell, I miss you
I'm sick of these good byes
Cause it tore us apart, right from the start
I miss you.

Candles burn slowly, flames shine so brightly.
Light in the darkness, save me from madness again.

Only the lonely, can possibly know me.
Heat keeps on rising, fire engulfs me again.
Keeps on rising.

Farewell, I miss you
I'm sick of these good byes
Cause it tore us apart, right from the start
I miss you.

Farewell, I miss you
I'm sick of these good byes
Cause it tore us apart, right from the start
I miss you.
