If you worry over me like I worried over you  
Don't do it, darlin', don't do it, darlin'  
If you think I'm missin' you and I'm missin' kissin' you  
Don't do it, darlin', don't do it, darlin'

I gave you all the love I've had and trusted it with you  
You took my heart and played with it and then you  
proved untrue  
Now that you are all alone and you feel the need to  
phone  
Don't do it, darlin', don't do it, darlin'

I gave you all the love I've had and trusted it with you  
You took my heart and played with it and then you  
proved untrue  
Now that you are all alone and you feel the need to  
phone  
Don't do it, darlin', don't do it, darlin'

Don't do it, darlin', don't do it, darlin'
