"Goodbye Friday"

Visit "[Goodbye Friday](#)" on MotoLyrics.com

You got no fear
And you're down in the crowd
You lose your senses
And you let it all hang out
All hang out, yeah, yeah

You get so high
You're too damn proud
Tear down the fences
And you know there is no doubt
Know there is no doubt

What do you want from me?
(You say you wrote it in a letter)
You know I wanna be
(And now you know I'm getting better)
And now it's history

If you really want it
How you gonna get it?
If you really need it
How you gonna keep it?

Goodbye Friday
Operator put me through
Goodbye Friday
Now it's time for something new

You gotta move
Gotta beat the clock
You got nothin' till you
Break down Hollywood
Oh, Hollywood

You already in a state of shock
You got something
That will take you down for good

What do you want from me?
(You say you wrote it in a letter)
You know I wanna be
(And now you know I'm getting better)

And now it's history

If you really want it
How you gonna get it?
If you really need it
How you gonna keep it?

Goodbye Friday
Operator, put me through
Goodbye Friday
Now it's time for something new

What do you want from me?
(You say you wrote it in a letter)
You know I wanna be
(And now you know I'm getting better)
And now it's history

If you really want it
How you gonna get it?
If you really need it
How you gonna keep it?

Goodbye Friday
Operator, put me through
Goodbye Friday
Now it's time for something new
Goodbye Friday

If you really want it
How you gonna get it?
If you really need it
How you gonna keep it?

If you really want it
How you gonna get it?
If you really need it
How you gonna keep it?

Oh yeah, I said, bye bye, baby, yeah
So long now
I said, goodbye, goodbye, goodbye
Goodbye Friday
