Your other love buys you pretty clothes  
And all the fine things heaven only knows that I wish I  
could  
Your other love that dances and sings,  
Swings, says all the pretty little things that a playboy  
should

Mmm he's got money he's got charms  
and when you're walking arm in arm It hurts me so,  
but I just want you to know

It's not easy, heaven knows I've try  
to wish the best for you and push myself aside  
Well it takes the greatest love that you'll never find  
to let you walk away, leaving me behind  
And that's the greatest love, yes it is

Your other love, he's got the power  
to enterain you each and every hour of the day and  
night  
Your other love, he's got the ways and means  
to show you all the wild scenes when the lights are  
bright

Oh, love should never be possessed  
so don't you cry and be depressed  
You're free to go, but I just want you to know

It's not easy, heaven knows I've try  
to wish the best for you and push myself aside  
Well it takes the greatest love that you'll never find  
to let you walk away leaving me behind  
And that's the greatest love, yes it is
