This time is not enough
For all in my life
I can't wait that long
To be better and feel the hope
I must go on with all my strenght
If I want more and more again

I don't have a friend
I don't have a place to stay
I dream that this is not real
But when I wake up is here
I must go on with al my strenght
If I want live today

Chorus:

This life is too short
To fight for nothing at all
But is too long
To be betterto be good for all
