"Reactive Self Portrait"

A shield of pride used to heal the pain inside
Makes yourself feel a step ahead in life
Wear the chains instead of feel released... I told you
Greatness belongs to small minds
Do you Feel devastated for your own weakness?
Use your "reactive self-portrait"
I keep the strength to face the un-faceless
While you pretend to be what you are not
While you betray, your evil eye is behind the dark
Remember that nobody cares 'bout your "reactive self-
portrait"
Words of fear turn to Everlasting knowing
Disguise to hide what you never want to show them
Look inside, is this all you can hold on to?
Greatness belongs to an empty heart
If the coward unconsciously designs strategies to
survive
Why don't you Clean the scars?
I keep the strength to face the un-faceless
While you pretend to be what you are not
While you betray, your evil eye is behind the dark
Remember that nobody cares...

[Solo GenÃ³a / Solo Olivares]

I keep the strength to face the un-faceless
While you pretend to be what you are not
While you betray, your evil eye is behind the dark
Remember that nobody cares...
