Going down to the roots  
Visiting the place under  
Passing through the levels of time  
Seeing "Gods" in dirt  
At the gates of deepest fear  
Cold will tear you apart  
It hits you like a spear  
All your fear lies in the dark  
Let them rest in peace  
Would you like to be disturbed?  
Let them rest in peace  
Would you like to be disturbed?  
Soon we'll find ourselves  
Next to thee  
The deeper you dig  
The further you leave me  
Try finding the right way back  
It's not going to be easy to see  
Graves are filled with bones  
They don't want us to be there  
You've been warned  
So get the fuck out of here
