Sometimes I wish you were dead

Eyes closed, lying in bed

Sometimes I wish you were dead

Stone cold, covered in red

You're lying in my bed

Nice view

That's how I like you

What a nice view

That's why I love you

Nice view

That's the reason I killed you

What a great view

That's the way I like you most

That's the way I like you most

That's the way I like you most

That's the way I like you most
