Time goes so fast today. Don't blink she'll go away.
Don't
Close your eyes. Not for one moment. You feel so good
right
Now. You have to stay somehow. Don't let it slip. Let
time
Stay frozen.

She needs you. You need her. Just like the sun. Don't
think
That it's over. It's just begun.

Oh Mister Moon and Mister Sun. Our song has only just
Begun. Oh Mister Sun and Mister Moon. Don't let these
Minutes go too soon.

If wishes were for free. My only hope would be. To stop
the
Clock. Let's keep this moment. I guess that's just a
dream.
As hollow as your own moon beam. So let us revel in
our
Time.

She needs you. You need her. Just like the sun. It never
is
Over. Once it's begun.

Oh Mister Moon and Mister Sun. Our life has only just
Begun. Oh Mister Sun and Mister Moon. Don't let this
Moment go too soon.

Oh Mister Moon and Mister Sun. Our life has only just
Begun. Oh Mister Sun and Mister Moon. Don't let this
Moment go too soon. Oh Mister Moon and Mister Sun.
Our
Song has only just begun. Oh Mister Sun and Mister
Moon.
Don't let these minutes go too soon.
