(Burden/Callis/Oakey)
Around the nation, around the world
What's been going down?
A million voices, one question hurled
Heard in every town
All of the people, one simple plea
What will happen now?
Asked in concern for their destiny
Got to know somehow
They say
They say
Everything will be fine
Everything will be fine
Everything will be fine
I saw the sign
So if you want to know what's going on
Going round and round
You'd better ask before your world is gone
Gone without a sound
They say
They say
Everything will be fine
Everything will be fine
Everything will be fine
I saw the sign
Everything will be fine
Everything will be fine
Everything will be fine
I saw the sign
Lyrics by Philip Oakey
