Join us, come and join us  
Join us, come and join us

There is a path that's crystal clear  
It guides the wise away from here  
In summer's hazy atmosphere  
Or wintertime

The more the merrier they say  
The moors stretch out along the way  
By glow of night, by light of day  
Just read the signs

'Til we can see the smoke rise in the distance  
Reminding us of home not far behind  
Careering through the path of least resistance  
We're going on a journey of the mind

From the town to the country  
From the country to the town

Come and join us  
Come and join us  
From the valley to the hillside  
From the upside to the down

Join us, come and join us  
A rush along a zigzag road  
Surprised the damned, by mouth of toad  
A shop where you cannot reload

The way to Hyde, the sixty-two or six two eight  
Will do if you cannot be late  
Sometimes the only choice to make  
In wintertime

We gaze upon the face of the Apollo  
We know that we approach our journey's end  
And still we will be home before tomorrow  
But we will rise before we must descend

From the town to the country  
From the country to the town

Come and join us  
Come and join us  
From the valley to the hillside  
From the upside to the down

Join us, come and join us  
From the town to the country  
From the country to the town

Come and join us  
Come and join us  
From the valley to the hillside  
From the upside to the down

Join us, come and join us  
We hear the bells, we hear the bells  
We hear the bells, we hear the bells  
We hear the bells, we hear the bells  
They're ringing low, we hear the bells

Join us, we hear the bells  
We hear the bells, we hear the bells  
We hear the bells, come and join us  
We hear the bells, we hear the bells  
They're ringing low, we hear the bells  
Come to the valley

Join us, we hear the bells  
We hear the bells, come to the valley  
Come and join us, we hear the bells  
We hear the bells, come to the valley  
Come and join us, we hear the bells  
We hear the bells, they're ringing low

From the town to the country  
From the country to the town  
Come and join us, come and join us  
From the valley to the hillside  
From the upside to the down

Join us, come and join us  
From the town to the country  
From the country to the town

Join us, come and join us  
From the valley to the hillside  
From the upside to the down

Join us, come and join us
