

## Human League

### "Path Of Least Resistance"

Visit "[Path Of Least Resistance](#)" on MotoLyrics.com

Faced with the choice, what would you say?  
The path of least resistance, It seems the only way  
But can we look a little further? To level four I think  
Self-belief's the answer, and not another drink  
The safe method, the only way, you rationalise your  
course  
Stay part of the crowd, and never find the source  
Feel wanted, feel numb, just stay as you are  
The truth is - comfort kills, and you don't need that car

So sad, the early grave, when all the fun's for free  
Start digging the early grave, and keep it warm for me

Faced with the choice, what would you say?  
The path of least resistance, It seems the only way  
But let's look a little further, to level four, I think  
Self-belief's the answer, and not another drink  
The safe method, the only way, you rationalise your  
course  
Stay a part of the crowd, and never find the source  
Feel wanted, feel numb, just stay as you are  
The truth is, comfort kills, and you don't need that car
