"Whisper Your Name"

Visit "[Whisper Your Name](#)" on MotoLyrics.com

Baby I know you've
been missin' me
(And he knows you've
been playin' around)
We make a special kind
of chemistry
(Every time you've been
comin' down)
Oh if it's wrong to be
lovin' you
(Why does it feel so
good to me)
Baby tell me what I
gotta do
(To lay it down and to
make you believe)

We rocked the cradle -
let it fall
Leave him now or lose it
all
We got something
special
That we won't find again
'Cause every time I lie
with you
Babe he knows you're
lyin' too
tell me who's lovin' you
Oh tell me

CHORUS

Does he whisper your
name
Can he love you like this
Does he love you the
way
That I love you baby

I never thought I'd be

doin' you
(But I heard you were
diggin' on me)
Can't you see what we
got into
(It's not a fling you can
get up an dleave)
You had the time baby I
had the place
(So we could get it on)
So baby turn around
and show your face
('cause it's time that
you let him see)

We rocked the cradle -
let it fall
Baby we mad lovin'
Like we won't find again
'Cause every time I lie
with you
Babe he knows you're
lyin' too
Tell me who's lovin' you
Oh tell me

REPEAT CHORUS TWICE

(Look at me now)
I swear that I'm for real
(Gotta believe)
Oh I'll love you like no
other baby
(Now is the time)
Time to tell him goodbye
No - one else can love you like I do
(No - one loves you the
way that I love you)

REPEAT CHORUS TO FADE
