You know sometimes shit just gotta go down
Eminem, you swung first, a-huh
Death Row, Miilkbone, niggaz swingin next
This is "Presenting Miilkbone"
Watch your ass bwoy!!

(c'mon, knock it out dawg)

[Naji] Yo why you runnin your mouth?
Ahh you just upset cause my man dissed you
That's all it took, peek-a-boo!
(Yo, didn't Dre take his beat?)
From right in your face, I'm right here WHAT?!

[Miilkbone]
Yo yo I get mine mine every frickin time
I write rhymes like diamonds so now they call me
Spit'n'Shine
I'm Miilkbone, blast disaster, no Mather could matter
Subtract Dre on his Day and y'all add up the Math-After
I shatter and splatter your bladded to pieces of feces
I don't believe this -- I'm gettin dissed by this musical
Beavis
Stove-head rotten rhymmer, crackpot designer miner
Chinky-eyed like China, fuck you nickel and dime
rhymmer
Hatin to love me, cause his watch is stud-free
You sippin, bubbly, but you rhyme, like Chub-bly
Go against me, rebel, time will tell, climb and rapel
down from a thousand heights like Super Son of Jarel,
what?

Chorus: Naji (repeat 2X)

I said, *HI*, your name is *WHAT?* Slim Shady
Since you actin like a baby then I guess without no
maybe's
Introduc'in: Miilkbone, BAD TO THE BONE
Where the party at? Where the Bacardi at?

[Miilkbone]

I'm shoutin out to Eminem, gassed like mopeds on a
mountain
Dre gave you a couple dollars, and you a fiend, so why
you countin?
I've been known to murder mics and make a move like
your mamma
I'm a master with the motive of emotionless type
persona
Mentally massacre many, promotin mo' bass
I take Eminem motherfuckers and melt his muzzle with
mace
Majestic Motorola, maneuver beats like MIDI
Mindset you beat me? You need to know, HEE HEE
HOW, like Missy
My melody mark, multiplied by millions, the mack tells
the miscellaneous methods of my music on Maxell
Manipulatin a whole masquerade of these make-
believe MC's
Cause I'm Miilkbone, and I made mine
and you're mo' better on your knees

Chorus

[Miilkbone]

Meet the perfector, sweet like nectar, beef corrector
heat-injector, gap in your teeth connector, beat
collector
Eminem, raindrops, Miilkbone, name tops
We both got bikes - I run out of gas and yo' chain pops
You want it? You got it
We Bout It Bout It, you need to eat it
Nobody Iller with Thrillers makin Billie Jean Beat It,
cause
I write like the future (I'm back) when y'all ready to read
it
Repeat it: my pounds of bud, and yo' shit's heavily
seeded
With the hotness, with the Loch Ness
Mr. Marshall, wanna watch this?
You act like you the package with these songs like
empty boxes
Deliver my day to change, Miilkbone's the remainder
I make you famous sayin, "Hi - my name is Mr. Anus"
Yo, this Eminem shit don't melt in Dre's hands
It melts in his mouth - these crossdressin
motherfuckers!

Chorus
