[verse 1]

I had a round with emotion, a round with devotion I
came out winning, I came out losing
I didn't know which way I wanted to turn Until I turned
inside
Didn't know which way I wanted to go Until I went with
you for that ride

[chorus]

Now, I just want get up Just want get up and ride with
you
Whoa, just want get up Just want get up and ride with
you

[verse 2]

There was pain in the laughter And I was never knowing
what I was after

I'm on a path of self-destruction And fighting just to
function
A second chance appeared to me Like a sudden wind
blowing through the trees
Where do I stand inside of your dreams And, do I fit in
your future schemes?

[chorus]

[chorus]
