from the total way of life  
became the obliteration of it  
a bomb created just to steal  
the precious lives who lived it

the first step was the third war  
and the invention of the new genocide  
a genocide thought by most  
as just a safety precaution  
but the inventor thought of its purpose well  
it was to bring a total mass hysteria  
but broke havoc into the calmest of men  
and so began the symptoms of the new society

you will see your death coming neither painless or  
harmless

- symptoms are showing -  
you not far from the real, true pains of death  
- symptoms are showing -  
lymph nodes expanding from the sides of your neck  
- symptoms are showing -  
induced sickness but from vomit your blood  
- symptoms are showing -  
skin starts peeling, cracking to show your veins

- symptoms are showing -  
choking on the organs you tried to vomit up  
- symptoms are gone -

after death there is no rest  
the corpses rise to start their feast  
pulling tendons from the victim's neck  
from those they wish to eat

after two days the infected arise  
mutilating children feeding on their cries  
fear creates hunger hunger brings death  
once infected like the others no rest

rivers of blood flow in the streets  
mutilated bodies, hands and feet  
intestines and guts decorate the walls

scrotums ripped open revealing your balls

chewing out teeth ripping out lungs  
deveining of arms dismemberment of tongues  
impaling your corpse on the gates of a church  
your second life an immortal search  
symptoms - of - the - new society
