Feel me in your sleep, see me in your dreams.  
I'm the one you really should scare babe.  
I can't say this nice, I need an alibi,  
Someone has to cover me while I'm eatin' your head,  
I'll sleep in your bed...

[Chorus:]  
Animal. animal...

Red burning eyes, blood will paint the sky,  
I make the rules, and you just shut up.  
A bullet in your back, you feel me when I stab,  
I'll come to you an' tear out your heart,  
You're breaking apart.

[Chorus]  
[Solo]
