"I Will Follow"

Visit "[I Will Follow](#)" on MotoLyrics.com

Have you seen a holy man
Have you heard about his plan
To rule the world a thousand years
He dont practice what they preach
Guns were fired in the streets
In the name of higher grace

Come on closer
Leave the dark behind you
Ill keep you safe in my heart

You dont have to say you need me
You dont have to say you care
We can share this night together
And Ill follow you one day

Making promises for man
But they never understand
Its hard to tame
The seven seas
Spirit is forever free
Come with me and you will see
Ill take you to the
Land of dreams

Try to slow down
But were still running
Take my hand we will survive
