They beat me up in school

(Cuz) my lifestyle ain't so cool

They punch me in the nose and laugh in my face

Later on at night

They pick another fight

I don't understand why they won't leave me alone.

Another bottle flies

I'm so sick of these guys

They wanna kick my ass for holding the hand

Of my special guy

They want me to die

They chase us down the road and into a dead end

My boyfriend's face was rearranged

And I'm mud, I'm mud
