Fighter jets in the sky
How many kids were killed by that guy
Forget burning an effigy
Let's set alight Dick Cheney
Guess what, Reaganomics suck
25 years of that administration
Another two before the chance for change
I doubt it'll happen anyway

The deficit, is getting high
The unemployed can't even afford to
Don't need no effigy
Empty a gas can over Condi
Guess what, Reaganomics suck
25 years still going strong
Another two before the next election hat, Reaganomics
suck
25 years of that administration
Another two before the chance for change
I doubt it'll happen anyway

The deficit, is getting high
The unemployed can't even afford to
Don't need no effigy
Empty a gas can over Condi
Guess what, Reaganomics suck
25 years still going strong
Another two before the next election
Another vote for another wrong
