

Humble Gods "Long Way"

Visit "[Long Way](#)" on MotoLyrics.com

I was taught to find the answers on my own
Brought up punk rock taught to question all and break
the mold
All you have in life is everything you hold inside
It's hard to play along once the real truth has been
realized
All my life I knew there was better way
All this time you spent and kept it locked away
All my life I knew we had a long way to go
We have a long way to go
Whooa whoa - we got a long way to go
Long way to go
There comes a time
When every soul must face oneself
Stand on your own
Conditioned thoughts get thrown right out
It's like a cleansing or exposing of reality
Once you realize everything's affecting everything
All my life I knew there was better way
All this time you spent and kept it locked away
All my life I knew we had a long way to go
Yeah yeah yeah!
They say it's me that's wrong
My thoughts they don't belong
My ways are dead and gone
And all I have are freedom songs
I just don't think their way
Don't like the words they say
The way they operate
Manipulate and spread their hate

I just don't think their way
Don't like the words they say
We have a long way to go
Whooa - whoa we have a long way to go
Long way to go
I was taught to find the answers on my own
Brought up punk rock taught to question all and break
the mold
This life is planned and exposing a reality
Once you realize everything's affecting everything
All my life I knew there was better way

All this time you spent and kept it locked away
All my life I knew we had a long way to go
Yeah yeah yeah Yeah!
They say it's me that's wrong
My thoughts they don't belong
My ways are dead and gone
And all I have are freedom songs
I just don't think their way
Don't like the words they say
The way they operate
Manipulate and spread their hate
They say it's me that's wrong
My thoughts they don't belong
My ways are dead and gone
And all I have are freedom songs
I just don't think their way
Don't like the words they say
We have a long way to go
Whoa whoa - we have a long way to go
Long way to go
