She was my sense of reason  
Girl that lived here  
Now she's gone and I'm alone  
Well, my heart is cold  
I can't control my soul  
Tryin' to remember  
Just try how it feels like living on your own  
Well, yeah, now  
I wander through my darkness  
And remember  
All the love that I have seen  
Don't fret my sweet  
Deeper than heat  
Oh, it was so long ago  
Like somewhere that I've touched but never been  
Well, yeah, ooh, ooh  
Well, oh, yeah, yeah, yeah  
Oh, I don't think, I don't think I can win  
Yeah, is this to be my destiny  
Oh, I'll stop and start again  
Oh, yeah  
Can I help it?  
I wanna remember  
Was I a fool to sit and dream  
Oh, help me over here  
The way to going clear  
Living for tomorrow  
As dead as yesterday before it's end  
Hey, yeah...  
Ooh, ooh...  
Let me have some peace of mind  
Let me feel I belong somewhere  
I'm gonna leave it all behind  
Leavin' to the country  
Ooh!  
Ooh!  
Ooh!  
Ooh!  
Ooh!
