I was meaning to tell you what happened today
Deceit lights the way
It's all in a letter addressed but not sent
Deceit lights the way
Light the way to the trespass
Things that you'd compromise
Though you'd sail it all away
With your smile it seems like
You were the one to find
Treasures denounced in the cold light of day
But you can sit and judge
Just like me
I was meaning to tell you what happened today
Deceit lights the way
It's all in a letter addressed but not sent
Deceit lights the way
Deceit lights the way
Fascias and lying smiles
Changing to what you might
Consider a way through your door
Facing your withered try
It's not as though you were right
To leave our respect out for the wolves
But you can sit and judge
Just like me
I was meaning to tell you what happened today
Deceit lights the way
It's all in a letter addressed but not sent
Deceit lights the way
Deceit lights the way
The pieces broke could not be mending
I was meaning to tell you what happened today
Deceit lights the way
It's all in a letter addressed but not sent
Deceit lights the way
Now that I've met you it's nice to be here
Deceit lights the way
It's all in a letter addressed but not sent
Deceit lights the way
