The avalanche we strode towards  
Is nothing to us at all now  
With all its force we know it cannot  
Ever conceive to stand in our way

[CHORUS]

Condescending  
Chased it to where  
We're the first ones  
Start our lives here  
Condescending  
Chased it to where  
We're the first ones  
Start our lives here

And changing patterns don't take a toll  
We won't forget why we are here  
With our hands held together the clouds part  
As if they knew not to stand in our way

[CHORUS]
