### "Check Before Leaving"

A cut to the cord that will bind  
And you keep it with you always  
But just make sure its worth keeping  
Sever ties with which you were born

Grace you gave  
Open wounds like before  
I'm not hiding scared of it  
I always make it something more

The seeds you sowed in me  
Produced fauna of poison  
But i ask you to check before leaving  
Reminders in the room must go

Grace you gave  
Open wounds like before  
I'm not hiding scared of it  
I always make it something more

Just like before  
Grace just won't save us
