When did you lose faith?
Seems like yesterday
When we were up against them all.
And now I tiptoe
Around on eggshells.
There's nothing else I can do.

Good boyfriend,
Now I try to fake it.
And you think I'll never know
Why you try to make me
Never care at all.

Cover the mistakes,
Short temper always
Gets the better of you.
I want you to transform me into a star
So I can light your way.

Good boyfriend,
Now I try to fake it.
And you think I'll never know
Why you try to make me
Never care at all.

And I will look up
And lose all her trust
Like a wave coming over me.
And I will look up
As it breaks,
Like a wave coming over me.

Good boyfriend,
Now I try to fake it.
And you think I'll never know
Why you try to make me
Never care at all
