Curb it just for a moment
You called up just to lay it down
All i want is to hang up
Just to take ten seconds out
Misguided is what i never
Chose to be in major amounts
At times I am not so clever
I read from the sculptures in clouds
Can you just leave
What's the worst in pretending
Remove the noose from my throat
Wanted help for your mood swings
That changes all that I am
Misguided is what I never
Chose to be in major amounts
At times I am not so clever
I read from the sculptures in clouds
Last one found out
