

Hundred Reasons

"Shine"

Visit "[Shine](#)" on MotoLyrics.com

And you tear into one another
As I sit back and watch again
This tainted pair do whatever
Don't realise the time they've spent

chorus

Shine forever
Let it go
Burn forever
Let it shine
Shine forever
Let it go
Burn forever
Don't you let go

So you part again for reasons
Knowing together you don't belong
So I'll walk away forever
Leave you to the hole that you've dug

chorus

shine forever
let it go
burn forever
let it go
shine forever
burn forever
DON't you let go

So you wait for me to go now(x4)
