I don't know what to say  
You kick me away  
Roll me into a ball  
Then you kick me away  
Oh so far away  
But when I reach the wall  
Cause I, am scared beyond  
insane  
I think that you're to blame  
When all I feel is hurt  
It makes me want to go further  
Further, roll right over you  
I go further, further, roll right  
over you  
I don't know what to say

You kick me away  
Roll me into a ball  
Then you kick me away  
Oh so far away  
But when I reach the wall  
Cause I've got my friends, we  
get high they think she's shit,  
who'd wonder why  
When we hang around, you  
drag me down  
I can't look up you're all around  
I keep falling down
