I wish the couple on the corner would just get a room  
Seems like everyone around me's on their honey moon  
I'd love to take a pin to a heart shaped balloon  
Everybody's got somebody but me

Well I don't know how I landed on this movie set  
It's like a casting call to 'Romeo and Juliet'  
I never would have noticed if we'd never met  
But everybody's got somebody but me

And I miss you  
Without you I just don't fit in  
I know we're through  
But I'm wishing we could try it again

I hear love songs playing on the radio  
And people slow dancing everywhere I go

Well I'm a good slow dancer but you'd never know  
'Cause everybody's got somebody but me

Everybody's got somebody

And I miss you  
Without you I don't fit in  
I know we're through  
But I'm wishing we'd try it again

Sitting here lonely at a table for two  
Watching lovers being lovers in the corner booth  
Seems like even cupid don't know what to do  
Everybody's got someone but me

Yeah I don't know if I'll ever find another you

But everybody's got somebody but me
