Let...
The night...
The dream...
Amaze you...
With silence...
Let...
The dark... flood in...
No time for the violence...

Loneliness... goes off with the darkness...
Wakes you up... and grows with the brightness...

Let
Them feel
Your rights
No longer stay quiet...
No... more blood... no fights... 'cause people feel tired...

Loneliness... goes off with the darkness...
Wakes you up... and grows with the brightness...
Takes you down... when no one can hear you...
Scares you off... when nobody's near you...

Loneliness... goes off with the darkness...
Wakes you up... and grows with the brightness...
Takes you down... when no one can hear you...
Scares you off... when nobody's near you...
