Fall asleep and hide your dreams...  
Shallow hole will make you free, SO...  
Hear some voices deep in the ground!  
Taste the vermin climbing up into your mouth!

No one's brave enough to stay...  
But you would better learn to face your fear!  
No one's brave enough to stay...  
But you would better learn to face your...

Leave your gun in a shallow hole...  
You're the victim... proof of damn war!  
Whom to trust? What else to do?  
Viper's tail's - all over you!

Do not fool yourself at once...  
The harm that you have done won't disappear!  
Do not fool yourself at once...  
The harm that you have done won't disappear!  
Disappear!

Shallow hole will be your grave...  
Do not fear - your body's safe now...  
Parasites swim in your vein...  
Fuck'em all... stiff feels no pain!

Some'em nerves will disobey!  
But you know - you must stay over here!  
Some'em nerves will disobey!  
But you know - you must stay over here!  
Face your fear!  
Disappear!  
Over here!
