Where did that girl come from
Must have been straight out of heaven
And into my life

She makes me feel complete
And she treats me oh so sweet
And now i'm feeling alright

There's not another like her
In the whole wide world
She's just the coolest thing
A punk rock girl

Woh-oh-oh
Alison's the bomb
Oh-oh
Alison's the bomb
Oh-oh
Alison's the bomb
And you know she's just so rad

She took my breath away
When i met her that summer day
Playing at the rock 'n' roll show

She's always on my mind
And if she was mine
