Said her name was something (?)
I could see the (?) in my eye
She walked up and we started dancin'
I thought there would be romance then
She walked out the door with another guy

And it's just another day
Just another day oh at the hardy holly
Just another day
Just another day oh at the hardy holly
Just another day
Just another day oh at the hardy holly
Ya ya ya oh oh oh yeah

She was there again last night
Said she's sorry wants to treat me right
Talked me into letting her wear my (?)
I bought her a soda and when i came back

I cought my breath she's walking out with him
