You call me up and tell me lies
To try to change my mind
But you're not the girl i'm lookin' for
So stop wastin' all your time

Now that i let you know
I got one more thing to say
How can i miss you
If you won't go away?

You follow me around downtown
Like a dog without a home
And i'd do almost anything
If you'd just leave me alone

It's not gonna make it better
If i see you every day 'cause
How can i miss you
If you won't go away?
